

Learn By Doing — Virtually Anywhere!

Online Career Training with VIRTUAL REALITY (VR) HEADSETS

▶ ADVANCED CAREER TRAINING VR COURSES

In-demand careers in manufacturing and the skilled trades require more than just theory—they require practice. Our online career training courses combine expert instruction with immersive virtual reality (VR) experiences, giving students the ability to practice, learn, and build real-world skills from home. With VR, students can explore interactive, realistic training simulations in a controlled, risk-free environment—bridging the gap between online learning and hands-on experience.

Composites Technician
with VR Training

CNC Machinist
with VR Training

Die Setter
with VR Training

Engineering Technician
with VR Training

Maintenance Technician
with VR Training

Manual Machinist
with VR Training

Mechatronics
with VR Training

Press Operator: Cold Stamping
with VR Training

Press Operator: Hot Stamping
with VR Training

Process Technician
with VR Training

Quality Inspector
with VR Training

Robotics Technician
with VR Training

Tool and Die Maker
with VR Training

Toolmaker
with VR Training

Welder Technician
with VR Training

**Meta Quest 3 VR Headset Kit
included with enrollment**

- Meta Quest 3 VR headset
- Two controllers
